WHAT AN UNLEASHED EXECUTIVE TEAM LOOKS LIKE

UNLEASHED LEADERSHIP

Does your executive team look like this?

Over 25 years of developing leadership teams, we've found that **seven traits** separate the teams that move your company forward from the ones who hold it back. Here's what each trait looks like when it's working. **How close is your team?**

EACH LEADER DEVELOPS THESE IN THEMSELVES

1 CHARACTER

Each person takes ownership, makes the hard decisions, and treats others with honor.

2 COMPETENCE

Every member develops the skills needed to accomplish the vision rather than staying stuck on the skills that got them to where they are.

3 CAPACITY

Each person manages their time, energy, and attention so they can support their people to achieve results.

LEADERS DEVELOP THESE TOGETHER, ACROSS THEIR DEPARTMENTS

4 CLARITY

Everyone knows where the company is going, how they're getting there, and each person's role in getting there.

5 COMMUNITY

Each person proactively builds trust with others and collaborates to accomplish goals.

6 CULTURE

Every team member intentionally shapes the values, behaviors, habits, and attitudes they want everyone in the company to embody.

THE TRAIT THAT WRAPS ALL THE OTHERS

7 CONSISTENCY

Leaders act in consistent ways that people can trust, because their messaging, vision, and expectations stay consistent.
